Protestant Religious Education & Diaconia, M. A.

- Standard study period: 3 semesters (90 credits)
- Academic degree: Master of Arts (M. A.)
- Consecutive in-person studies, full-time
- Study start: Summer semester

The Master's degree program imparts pedagogical, theological and didactic skills for shaping church congregational work and for teaching religious education in schools. Both fields of learning prepare students for a critical examination of religious traditions as well as questions of Christian theology and ethics.

Focus: Training of personality-related skills as well as training in conversation, counselling and pastoral care.

Leadership – Education – Diversity, M. A.

- Standard study period: 3 semesters (90 credits)
- Academic degree: Master of Arts (M. A.)
- Consecutive in-person studies, full-time
- Study start: Summer semester

Focus: Health/Social Management, Childhood Education, Flight and Migration

Prerequisites for studying: University degree with professional qualification in an undergraduate degree program in a social science, humanities, health or humanities discipline (210 credits). Graduates of a degree program with 180 ECTS credits must prove or acquire missing ECTS credits through other qualification achievements.

EVANGELISCHE HOCHSCHULE BERLIN

Social Work, B. A.

- Standard study period: 7 semesters (210 credits)
- Academic degree: Bachelor of Arts (B. A.)
- State recognition as a social worker or social pedagogue is granted on application by the Senate
- Study start: Summer and winter semester

Professional fields of activity: The degree program qualifies students for work in public or private institutions in youth and family welfare, adult education, health care and various other fields of social activity.

Protestant Religious Education & Diaconia, B. A.

- Standard study period: 7 semesters (210 credits)
- Academic degree: Bachelor of Arts (B. A.)
- Study start: Winter semester

Professional fields of activity: The Bachelor's program qualifies students for community education work with all age groups in church congregations. The Bachelor's degree also trains other educational staff. The major in Diaconia combines training in a state-recognised social profession with a qualification in theology.

Childhood Education, B. A.

- Standard study period: 7 semesters (210 credits)
- Academic degree: Bachelor of Arts (B. A.)
- State recognition as a social worker or social pedagogue is granted on application by the Senate
- Study start: Summer semester

Professional fields of activity: The degree program qualifies students for activities related to the education of children aged from zero to twelve years.

Bachelor of Nursing, B. Sc.

- Standard study period: 7 semesters (210 credits)
- Academic degree: Bachelor of Science (B. Sc.)
- Study start: Winter semester

Generalist nursing degree program which, in addition to the academic degree (B. Sc.), leads to the professional qualification of nursing specialist on the basis of the Pflegeberufereformgesetz (PflBRefG) / Nursing Professional Reform Act. The studies take place at the EHB, the practical training at the facilities of selected cooperation partners.

Professional fields of activity: Care in inpatient and outpatient facilities and services. Participation in the coordination and management of health and care provision, counselling, etc. The Bachelor of Science degree is in line with international standards and enables you to work abroad.

Midwifery, B. Sc.

- Standard study period: 7 semesters (210 Credits)
- Academic degree: Bachelor of Science (B. Sc.)
- Dual full-time study course. Professional qualification as a midwife (m/f/d)
- Study start: Winter semester

Midwives care for, accompany, support and monitor women and their newborn children during pregnancy, birth, postpartum and the breastfeeding phase. The study program is carried out in cooperation with numerous practical facilities in clinical and out-of-hospital obstetrics. Theoretical and practical teaching/learning events take place at the EHB. Theoretical knowledge is put to use during practical sessions in the newly established SkillsLab (training space) at the EHB.

Professional fields of activity: Care, support and counselling for pregnant women, women giving birth and young families; as an employee in inpatient and outpatient facilities, as a self-employed freelancer (at medical practice, birth centres, etc.)

Counselling in Social Work, M. A.

- Standard study period: 6 semesters (90 credits)
- Academic degree: Master of Arts (M. A.)
- Consecutive, part-time study course (in-person study course)
- Study start: Winter semester

Professional fields of activity: The Master's program qualifies students with professional experience (in a central field of work) to become social work professionals in the field of socio-educational counselling for multi-professional, interdisciplinary work with children, young people and families under stress as well as adults in special circumstances. Graduates are able to develop counselling concepts, carry out application-related counselling research and work in management positions.

Health/Nursing – Vocational Education, M. A.

- Standard study period: 4 semesters (90 credits),
- Academic degree: Master of Arts (M. A.)
- Consecutive, part-time study course (in-person study course)
- Study start: Winter semester

The degree program includes modules in educational sciences/professional field didactics as well as health science and nursing science, including the designated reference sciences.

Fields of activity in Vocational Education: Vocational education and training, education in the health sector, in-company education and human resources management, continuing vocational education and training in public and private institutions, in health, midwifery and nursing science fields of activity, as well as in science, research and teaching.
